

15kW Distribution Box Specifications

Overview

The 15kW PDS has two 60A input connectors to permit load paralleling and load transfer. Transportability: Treat as cargo. The PD Power Systems 15KW PDP is designed to accept power at 120/208 VAC, 3-phase, utilizing 60 amp power connectors. The MEPDIS-R provides a flexible, modular, recoverable, safe power distribution capability. The pictures displayed for this unit are a general representation of form factor and may not accurately represent this exact configuration in every detail due to. Main features:1. The distribution box has standard input and output portsInput: 32A (max) special aviation head, AC380VOutput: 16A (max) aircraft seat, 6-way, 220V2. Equipped with handle, easy to move3. Leakage protection, 1p air switch control for each circuit4.

15kW Distribution Box Specifications

The PD Power Systems 15KW PDP is designed to accept power at 120/208 VAC, 3-phase, utilizing 60 amp power connectors. Power is then distributed at 120/208 VAC 3-phase and 120 VAC 1-phase. ...

Several National Stock Number (NSN) items are available from 15KW to 200KW power capacities in over 40 configurations. The PDPs are commonly used in military "Bare Base" operations in extreme ...

The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.).

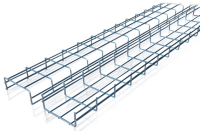

Electrical power distribution consists of circuit breakers feeding an output connector and receptacles that permit connecting cable feeders for load centers. The circuit breakers protect the cables from ...

The MEPDIS-R provides a flexible, modular, recoverable, safe power distribution capability. The 15kW PDS has two 60A input connectors to permit load paralleling and load transfer.

The MEPDIS-R system provides a flexible, modular, recoverable, safe power distribution capability that can be quickly emplaced and recovered for later reuse. The 15kW PDB has two 60A ...

Distributes power to smaller distribution units, environmental control units, ...

Distributes power to smaller distribution units, environmental control units, portable lights and for expeditionary applications including base camps. 15kW Air Force style military power distribution box ...

Main features:1. The distribution box has standard input and output ports
Input: 32A (max) special aviation head, AC380V
Output: 16A (max) aircraft seat, 6-way, 220V2. Equipped with handle, easy to ...

The PD Power Systems 15KW PDP is designed to accept power at 120/208 VAC, 3-phase, utilizing 60 amp power connectors. Power is then distributed at 120/208 VAC 3-phase and 120 VAC 1-phase. ...
