

2-fiber 4-electric switch industrial grade TP

2-fiber 4-electric switch industrial grade TP

Supports wide voltage input of 44V~57VDC, suitable for various industrial power supplies. Provide three types of power protection, greatly improving the reliability of switch power supply.

Wide-temperature Ethernet switch, 4 TP RJ45 ports, 1 FO port, 100 Mbps full duplex in SC-D format, automatic detection of data transmission speed of 10/100 Mbps (RJ45), autocrossing function, reads ...

The IFGS-1022HPT provides 2 extra Gigabit TP/SFP combo interfaces that enable network administrators to increase their network bandwidth to relieve traffic congestion when the 2 uplink ...

Industrial Series Switches provide rugged and reliable connectivity in harsh environments, featuring industrial-grade hardware, a wide operating temperature range, and strong protection against ...

Wide-temperature Ethernet switch, 4 TP RJ45 ports, 1 FO port, 100 Mbps full ...

TP-LINK TL-SG2105P industrial-grade Gigabit 1 optical 4 electric PoE optical fiber transceiver SFP optical port high-power PoE power supply module 5 port network management switch VLAN rail type ...

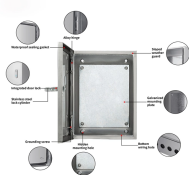

Our switches are built for high network flexibility, cyber security and durability and are suitable for use in mission-critical environments.

We offer stable, and highly-reliable managed and smart switches. All of them are available here in stackable variants with different numbers of slots.

ORing offers a comprehensive portfolio of rugged industrial Ethernet switches, from cost-effective unmanaged and PoE models to advanced Layer 2/3 managed switches enabling precise control. Our ...

Rugged Industrial Ethernet Switches with PoE, 5-10 ports, 10/100/1000Base-T and fiber support. Built to withstand -40°C to 75°C, shocks and vibration.

The IES3204P is a compact industrial PoE switch engineered to deliver both power and data to remote edge devices in space-constrained environments. Featuring 4 Gigabit PoE+ ports and 2 Gigabit fiber ...
