

20km Single-Fiber Optic Module

20km Single-Fiber Optic Module

Supporting up to 20km transmission over single-mode fiber at 1310nm wavelength, this module provides 8 dB link budget and multi-rate operation from 8.5 to 25.78 Gbps. IEEE 802.3cc compliant with ...

TRENDnet's single mode fiber SFP, model TEG-MGBS20, features a duplex LC fiber interface, supporting high-speed data rates for long distance networking applications (up to 20km).

Featuring a built-in Semtec chip and reliable FP laser / PIN receiver, the SFP module delivers low power consumption and stable optical links for 1G single mode networks like Gigabit Ethernet and Fibre ...

Dual-wavelength multiplexing single-fiber transceiver module, transmitter and receiver work independently. Save fiber resources: single-fiber module design, significantly reduce the cost of fiber ...

SFP-7020-31 SFP module has a 1.25Gbps (Gigabit) transmission rate. It is replacing the previous SFP-7010-31 model, which is now no longer available, being able to connect with old and new LX SFPs ...

Single-mode optical module is used to match single-mode fiber with better transmission capacity, which is suitable for long-distance transmission. Multi-mode optical module is used to match multi-mode fiber.

The transceiver is available as a mini-GBIC form factor, making it ideal for environments that require many fiber connections by taking up less space in your cabinet and/or computer room.

Supporting up to 20km transmission over single-mode fiber at ...

10G SFP BIDI 20km Simplex Optical Transceiver Module 1270nm/1330nm LC DDM Single Fiber Telecom Grade Data Center Use WDM Price

What Is an SFP 20km Transceiver? An SFP 20km transceiver is a small form-factor pluggable optical module designed to transmit Gigabit Ethernet signals over distances of up to 20 kilometers using ...

Supporting 20km transmission over single-mode fiber at 1310nm wavelength, this 1.25G SFP module provides 15 dB link budget with speeds from 100Mbps to 1.25Gbps. IEEE 802.3z compliant with ...
