

24-bit Gigabit Industrial Switches

24-bit Gigabit Industrial Switches

The KBC ESMGS24-P4 series is a high performance 24 port, industrial, managed Gigabit switch with 24 x 802.3at PoE+ ports and 4 shared SFP ports. It is designed for large scale IP surveillance ...

New generation of Gigabit Ethernet switch designed for high security and top performance. Features 24 auto-negotiating RJ45 ports and dual GbE SFP optical ports.

Unmanaged and managed switches in various designs are available to enhance performance and security. These robust switches are designed for industrial use and are fully compliant with IEEE ...

Installers and integrators can save on equipment costs and reduce installation time with TRENDnet's Industrial Gigabit PoE+ Switches by delivering up to 30W per port of PoE power and data over ...

A 24 port switch typically supports Gigabit speeds (10/100/1000 Mbps) on each port, making it suitable for most business and office networks. Higher-end models may ...

Digisol industrial switches consist of Unmanaged Din-Rail Industrial PoE Gigabit Switch, Unmanaged Industrial Switch, L2 Managed Din-Rail Industrial Gigabit PoE Switch & L2 Managed Din-Rail ...

The N-Tron NT24k managed Ethernet switch connects industrial operations to data reliably and efficiently. It provides an industry-ready way to move data across ...

The IE5100-24TF features 24x 10/100/1000BASE-T copper ports, 4x 100/1000BASE-X SFP ports in a 1U case, which is designed especially for a broad spectrum of industrial and extended enterprise ...

Gigabit switches outperform Fast Ethernet switches by a staggering 100-fold, delivering unmatched performance. Customize your network setup with options ranging from 5, 8, 12, 16 to 24 ports ...

The IKS-G6524A Series is equipped with 24 Gigabit Ethernet ports. The IKS-G6524A's full Gigabit capability increases bandwidth to provide high performance and the ability to quickly transfer large ...

The N-Tron NT24k managed Ethernet switch connects industrial operations to data reliably and efficiently. It provides an industry-ready way to move data across industrial networks.
