

2G optical network module

Overview

The 2G FC CWDM SFP Optical Transceiver is specifically designed for high performance integrated duplex data link over single mode optical fiber. The high-speed laser diode and APD are provided as a light source and a detector, respectively. This document provides technical descriptions, applications, and compatibility information for the following categories of optics modules in the Cisco ® ONS product family: ● Gigabit Interface Converter (GBIC) ● Small Form-Factor Pluggable (SFP) ● 10-Gigabit Small Form-Factor Pluggable (XFP) ●. ISO/IEC 27001 is an international standard for managing and processing information security. This standard is jointly developed by the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC). It sets out requirements for establishing. Ozark's Optical Transceiver Modules offer seamless connectivity with versatile options, including 1G, 2G, and 4G modules tailored to your requirements. And the variants, including SW, LW, EW. Full range of 1. 25Gbps SFP optical modules available, compatible with Cisco, Huawei, HPE and other major switch brands. Ideal for enterprise networks, data centers and Fiber Channel applications.

2G optical network module

Find the best 1G, 2G, or 4G transceiver for your network. Compare performance, range, and cost to make the best choice for your needs.

Fibre channel transceivers are suitable for Fiber Channel storage networks and Ethernet applications. The characteristics of small size and low power consumption meet the needs of fast and lossless ...

Using FP technology, it operates at a nominal wavelength of 1310nm coupled to an LC optical connector. It is a cost effective transceiver designed to enable 2Gb for data center and core network ...

Check FS compatible 2G Fibre Channel SFP transceiver module data sheet ...

They are widely used in Fast Ethernet, Gigabit Ethernet, 1G/2G Fiber Channel, and SDH applications, enabling data transmission over a pair of single-mode fibers at distances of up to 20km to 40km.

Optcore Fibre Channel (FC) SFP transceivers are an industry-standard small form-factor pluggable module for storage area networks (SANs) applications. The datarate of 2Gb, 4Gb, 8Gb, 10Gb, 16Gb, ...

Full range of 1.25G/2.125G/4.25Gbps SFP optical modules available, compatible with Cisco, Huawei, HPE and other major switch brands. Ideal for enterprise networks, data centers and Fiber Channel ...

These small, modular optical interface transceivers offer a convenient and cost-effective solution for an array of applications in the data center, campus, metropolitan-area access and ring ...

Ozark's Optical Transceiver Modules offer seamless connectivity with versatile options, including 1G, 2G, and 4G modules tailored to your requirements.

Check FS compatible 2G Fibre Channel SFP transceiver module data sheet (singlemode, 1550nm, 40km, LC connector) and price list on FS , buy it now!

The 2G FC CWDM SFP Optical Transceiver is specifically designed for high performance integrated duplex data link over single mode optical fiber. The high-speed laser diode and APD are provided as ...
