

380V distribution box standard level 3

380V distribution box standard level 3

Suitable for AC single-phase 220V, 50Hz, and three-phase 380V systems with a maximum current of 400A. Provides overload protection, short-circuit protection, and circuit switching functionality.

In-house switch-gear factory: CNC punching, laser cutting and fully-automatic powder-coating lines produce GB, IEC and UL standard distribution boxes, switchboards and fully customized enclosures, ...

Packaging should be the same as what is found in a retail store, unless the item was packaged by the manufacturer in non-retail packaging, such as an unprinted box or plastic bag.

Durable galvanized sheet steel + PC distribution box with IEC60439-3 standard, rated for 220V-380V, ideal for power distribution in commercial and residential buildings.

It serves as the central hub for receiving and distributing electrical energy in low-voltage systems up to 380V. Designed for power plants, substations, industrial enterprises, and commercial buildings, the ...

SX delivers high-performance power box systems at factory-direct prices. Our customisable solutions ensure you get the exact power distribution setup you need, without breaking the bank.

Eaton's Pow-R-Line 3e distribution panelboards provide higher interrupting ratings for selective coordination purposes and electric power distribution with integrated breakers, metering and surge ...

A distribution box rated for 380V can typically operate safely on 400V or 415V supplies, and vice versa, as long as the equipment is designed to IEC standards with appropriate voltage tolerance ...

This 60-amp unit provides 380V three phase via a main circuit breaker panel. The power distribution panel provides operators the ability to safely tap into and distribute 380V AC power from a variety of ...

With its new design, alfanar EletraGear has changed the concept of the bulky LV main distribution board and moved the competition to the next level, it is manufactured and tested to fulfil the ultimate needs ...

SX delivers high-performance power box systems at factory-direct ...
