

## 985 Bridge Construction

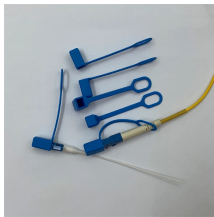

### Overview

This project will replace the existing bridge that was built in 1967 over I-985 in Gainesville. The proposed bridge will be 250 feet long, consisting of two 13-foot lanes, a 2-foot gutter, and a 8.5-foot sidewalk on the north side. The south side will be a 6 foot rural shoulder. The total deck width. “WHAT: Georgia Department of Transportation (Georgia DOT) and contractor E., Roadway Project Manager, Michael Baker International Located in the 1,500-acre Chicopee Woods Nature Preserve in North Georgia, the Elachee Nature Science Center is an education center that serves more than 35,000 students from over 35 school systems and an additional 30,000. Nearly 24 miles of road safety improvements are planned on I-985 under a contract recently approved by the state Department of Transportation Board. 9-mile project involves “pavement marking upgrades” and will begin at the I-85 split and extend to the US.

## 985 Bridge Construction

The Georgia Department of Transportation has started work on the replacement of Elachee Bridge over Interstate 985 in Hall County.

The Georgia Department of Transportation has started work on the replacement of Elachee Bridge over Interstate 985 in Hall County.

The repair work will begin at the I-85/I-985 split in Suwanee. Officials say the right lane will be closed starting at 9 a.m. and last until 4 p.m. on Monday and Tuesday.

Up to \$625 million in improvements to Interstate 985 at Interstate 85 in Gwinnett County have been recommended as part of an I-85 traffic study.
