

## A Complete List of Polish Explosion-Proof Distribution Box Models

### Overview

Our products are certified for installation technologies all over the world. Standard models available with short delivery times or custom-made terminal boxes – so that you are protected in hazardous areas worldwide. Warom specializes in manufacturing explosion-proof. All junction boxes and terminal boxes are designed to meet the essential requirements of the ATEX Directive (94/9/EC). Devices with additional measures to ensure effective protection against the generation of excessive temperatures, the occurrence of arcs and electric sparks, under normal operating. Atexdelvalle offers world-class explosion-protected solutions guaranteeing highest quality and performance with no compromise. Manufacture custom made Local Control Stations & Distribution Boxes, local control panel boards and stations, explosion protected control units, distribution. The Ex d EJB series of enclosures is suitable for use in Gas Group IIB+H 2 for the protection of electrical and control-system solutions, such as energy distribution, monitoring of processes and the complex control of machinery and other equipment.

## A Complete List of Polish Explosion-Proof Distribution Box Models

AGP17 ATEX and IECEx explosion-protected distribution boards are designed for MCB distribution of lighting circuits, heating circuits and socket distribution in Zone 1, 2, 21 and 22 hazardous areas.

The enclosures are certified Ex d IIB+H2 and Ex tb as well as "explosion-proof". They are available in many sizes, a wide range of operating elements and monitoring functions can be integrated. They ...

Standard models available with short delivery times or custom-made terminal boxes - so that you are protected in hazardous areas worldwide.

Whether as simple distribution boxes for energy, sensor signals or complex control systems - ROSE's Ex d Enclosures cover an extremely large and diverse range of requirements in industrial environments.
