

A company that supplies flame-retardant optical cables for smart buildings

Overview

Corning Optical Communications manufactures quality flame retardant optical fiber cables for indoor applications, which comply with the requirements of the National Electric Code® (NEC® 2023) published by the National Fire Protection Agency (NFPA). These indoor fiber optic cables are used exclusively within buildings and must have a flame-retardant cable jacket to fit this purpose. Flame resistant cable may be deployed in-duct (conduit) or cable tray. Engineered to provide serious capacity through backbone and high-density networks, this SmartRIBBON™ cable features intermittently. For critical communication lines flame-retardant properties of the cables are required to ensure normal signal transmission in emergency situations.

A company that supplies flame-retardant optical cables for smart b

Find your flame-retardant optical cable easily amongst the 51 products from the leading brands (LEMO, LAPP, SAB, ...) on DirectIndustry, the industry specialist for your professional purchases.

AFL's indoor/outdoor flame-retardant Wrapping Tube Cable with SpiderWeb Ribbon® (SWR) offers high fiber density, flexibility, and easy installation. Engineered for high-performance networks in space ...

FireTuf fibre optic cables are manufactured by Prysmian Draka. Offered in OM1, OM3 and OM4 multimode and OS2 singlemode, in 4, 8, 12 or 24 core fibre configurations.

Corning indoor fiber optic cables are used in spaces that require a flame retardant jacket. These cables may be deployed in duct (conduit) or cable tray.

WEINERT has been the world's leading supplier of safety cables for many years now. Whether you need infrastructure, energy, data, or communication cables: WEINERT offers the best level of fire ...

An isolated fire can develop into a large fire due to the rapid flame spread along cable communications. Our InFire Rated cables are designed to mitigate that risk and increase safety along the cables.

Engineered for critical safety, this fire-resistant optic cable provides reliable data transmission in high-risk environments. Fire-Resistant Optical Cables are specially designed to maintain data ...

High-capacity flame-retardant ribbon cable featuring intermittently bonded fibres and LSZH jacket. Engineered for dense fibre counts in data centres and core networks.

Corning Optical Communications manufactures quality flame retardant optical fiber cables for indoor applications, which comply with the requirements of the National Electric Code® (NEC® 2023) ...

As a manufacturer based in China's optical valley, we produce fire-rated optical cables using the same high-grade jacketing compounds (Lubrizol, Dow, etc.) used by major brands, but at a fraction of the ...
