

African Optical Cable Splicing and Manufacturing Plant

Overview

The new 14,000 sqm facility, Africa's largest optical fibre cable manufacturing plant, will allow for a significant increase in production capacity and scalability of high-quality optical fibre cables, a critical component in supporting South Africa's growing digital economy. Nigeria's digital infrastructure took a significant step forward with the commissioning of Africa's largest fibre optic cable factory and the continent's first fibre-reinforced plastic (FRP) manufacturing facility. Tijani highlighted that the achievement underscores Nigeria's growing industrial credentials and emphasized the role of secure, home-grown infrastructure in a rapidly digitalising economy. This expansion represents a significant milestone in the.
