

Austria Intelligent Cold Aisle 1U

Austria Intelligent Cold Aisle 1U

Designed to your specification, it can be custom configured to fit any white space layout, enabling a precise fit and streamlined installation. With a choice of single to double doors, Tate's Cold Aisle ...

InfraCool® Intelligent Fan Unit series is designed to provide local and remote management capabilities. Up to 16 fan units can be connected by daisy chain and remotely accessed by one single IP address.

Essentially creating a room within the aisle, the system helps keep hot and cold air separated to make existing air conditioning systems in data center and edge-of-network installations more efficient.

Strengthen door locks
More durable and aesthetically pleasing

Grounding screw
More aesthetically pleasing and safer

Removable hinges
Make operation more convenient

Sealing strip
Dustproof and waterproof

Cold Aisle Containment isolates the cold air, preventing it from mixing with the hot air. To enclose the cold aisle between adjustment rack rows, Aisle Containment ...

Thermal management presents big challenges for today's data centers, chief among which is cooling equipment in enclosed racks. InfraCool intelligent cooling solutions provide appropriate airflow, while ...

A comprehensive efficiency management platform that combines cold aisle containment with intelligent environmental controls can deliver greater than 30 percent energy savings and 25 percent capacity ...

InfraCool Intelligent Fan Unit series is designed to provide local and remote management capabilities. Up to 16 fan units can be connected by daisy chain and remotely accessed by one single IP address.

This case study details the application of an Ardmac ground supported, structural HAC (Hot Aisle Containment) assembly for a data centre project based in Austria.

InfraCool® Intelligent Fan Unit series is designed to provide local and remote ...

Reliable iPower: Visualization of power supply chain, fault auto-locating and auto shutdown for proactive protection Innovative intelligent refrigerant leakage detection prevents cooling capacity

Works with hot or cold aisle architectures with raised or slab flooring. Configurable with vertical duct for hot aisle architecture or horizontal flat roof for cold aisle. Multi-purpose ceiling and wall tiles ...

Vertiv™ SmartAisle™ - A form of containment proven to lead to substantial savings in energy costs Achieved energy savings through patented, controlled cold aisle containment in many projects ...
