

Austrian Rack DC Power Distribution Unit Desktop Installation Solution

Austrian Rack DC Power Distribution Unit Desktop Installation Solution

These units allow for sub-board type distribution to be installed inside a 19" Rack Enclosure, saving the cost and frustration of finding space for a wall-mount distribution board.

This feature provides system integrators with a flexible DC power distribution system allowing the installer to assign low power loads to 8 fuses and high power loads to 8 circuit breakers.

Helios Power Solutions can deliver power solutions where you need them, backed by in-house design, manufacturing, distribution, professional services and the best in-market technical customer support ...
