

Belgian hybrid optical and electrical cable 2 cores

Belgian hybrid optical and electrical cable 2 cores

Being a forerunner in the telecom field we manufacture Telecom hybrid cables with completely customized structures and designs. Our R& D department provides support for the cable structure ...

A LSZH inner sheath is extruded on the tight buffered fibre to form an optical sub-unit. Then optical sub-units and copper wires are stranded around a non-metallic central strength member to form a cable ...

One for all, all in one! With just one cable you can carry multiple combinations of signals and power. Versatile, the best choice for cable management solutions.

CommScope bundles hybrid cabling to your custom specifications, using our high-performance fiber-optic, unshielded twisted pair and coaxial cables.

DuetConnect Hybrid Copper-Fiber Cables allow one cable to offer the advantages of DC power and fiber, safely delivering both over long distances to remote locations where standard power is ...

Our hybrid cables offer a diverse range of combinable cable components, encompassing copper buffered fibers, optical fibers, coaxial cables, shielded pairs, and data/control/supply lines.

In the field of telecommunications, we also carry an extensive product range consisting of copper telecommunication cables, fiber optic cables, coaxial cables, hybrid cables and accessories. The ...

Discover APAR Gigavolt hybrid power and fibre cables that cut rollout time, simplify cable management and lower TCO for 5G, IoT and DAS networks.

Hybrid special cables for surgical robots are designed to be particularly resistant to tension and torsion. Highly flexible and biocompatible cables combine, for example, optical fibres, coaxial elements, ...

Since 1964, Belram has been a leading Belgian and Luxembourg distributor of connectors, cables, interconnection systems and accessories for professional power, control, data, audio, video and ...
