

## Brunei Integrated Power System Processing

### Overview

We create intelligent buildings, efficient energy solutions and integrated infrastructure that work seamlessly together to deliver on the promise of smart cities and communities. Offering a broad spectrum of services customizable to meet your requirements. Brunei's power grid management has evolved significantly from its early dependence on oil and gas-driven electricity generation. This transformation reflects. INEAX is founded by a team of engineers passionate in Controls & Industrial Network technologies. Together with our local partner in Vietnam ESACO, we deliver our first fully in-house. The System Value framework more holistically evaluates economic, environmental, social and technical outcomes of potential energy solutions across markets. The framework aims to shift political and commercial focus beyond cost to include value. Founded in 2008, ETSSB has strong capabilities and.

## Brunei Integrated Power System Processing

We create intelligent buildings, efficient energy solutions and integrated infrastructure that work seamlessly together to deliver on the promise of smart cities and communities.

We specialize in Onshore & Offshore Electrical & Instrumentation, Mechanical & Civil Works. Exceltech Solutions Sdn Bhd (ETSSB) is a dynamic and fast-growing Bruneian company that offers fit-for ...
