

## Cable tray sleeve materials

### Overview

When it comes to fabricating cable tray enclosures, you can choose from composite, rubber, metal to plastic materials. However, metal and composite materials remain popular in today's industry. Fabricated cable tray sleeves, with or without firestop products, are an economical alternative to the high cost of fabricating penetration sleeves in the field. That is, it covers the top section of the cable tray. In this guide, you will learn about the different types of cable. Hubbell's NEXTFRAME® Ladder Tray is the effective and widely used cable runway that supports and delivers bundles of cable between cabinets, racks, and closets, along walls, and suspended from ceilings. The Ladder Tray features light, rugged, tubular steel construction.
