

Construction of the upper left bridge bend

Overview

The bridge, built in the 1970s, has been closed to the public since 2015 due to concerns with its structural integrity and remains closed due to public safety risks. Remove the wooden pedestrian bridge over the Deschutes River downstream of the Archie Briggs Road bridge. These improvements will reduce high severity crashes and improve US97 operations. Project also includes other miscellaneous improvements including pedestrian. Removing the bridge and rebuilding the stairs is anticipated in the summer and fall of 2026. This will create a calmer, safer. In accordance with the National Environmental Policy Act (NEPA) of 1969, the U. Army Corps of Engineers San Francisco District has prepared a draft General Reevaluation Report/Supplemental Environmental Assessment (GRR/EA) for the proposed Upper Guadalupe Flood Risk Management Project, located in.
