

Croatia Warranty Edge Data Center IP65

Overview

In order to take full advantage of NewEdge Data Centers (DCs) and prevent service disruptions, you must allowlist the IP ranges listed below for outbound traffic to NewEdge DCs and inbound traffic for source IP-restricted cloud applications. We currently have 17 data centers listed, from 5 markets in Croatia (Republika Hrvatska). Save the trouble of contacting the providers yourself, check out our Quote Service. Click on the headers to sort the markets by name or data. Customers that have implemented private Cloud Enforcement Nodes in their environment: you may need to take into account additional address ranges not represented here. Customers should ensure that access is permitted to data center IP ranges. The IP ranges are used for both ingress and egress of.
