

Customized Swiss Industrial-Grade Optical Modules

Customized Swiss Industrial-Grade Optical Modules

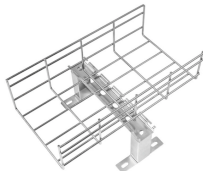

Bridging photonic innovation to market-ready modules with advanced packaging and integration services - from first concept to scalable product.

We develop and manufacture customer specific solutions for various light- and laser-based applications such as industrial manufacturing, security, aviation and multimedia.

We bring unparalleled expertise, production capabilities and efficiencies.

We design and build integrated optical modules tailored to customer requirements. When needed, we leverage a trusted network of domestic and international optical specialists to support manufacturing.

Edmund Optics ® engineers can design and manufacture fully-custom components, build-to-print following customer-supplied designs, and quickly modify any of our thousands of off-the-shelf optics ...

Utom AG is a Swiss high-tech optics company specializing in the design, production, and sale of custom-tailored IBS coatings.

Utom AG is a Swiss high-tech optics company specializing in the design, production, and sale of custom-tailored IBS coatings.

Discover DIAMOND SA's high-performance fiber optic products, from advanced connectors to custom assemblies. Built with our proprietary ferrule technology, our solutions deliver precision and reliability ...

We create custom optical solutions that meet the highest industry standards. Our advanced optics manufacturing process ensures top performance in a wide range of applications.

FISBA provides customized laser and illumination modules for life sciences that ensure stability, efficiency, and precision, supporting diagnostics and biomedical research.

Discover high-performance industrial lasers and precision optics from TLD Photonics — engineered for maximum efficiency, unmatched reliability, and versatile applications. Boost your production with ...
