

Czech constant temperature cabinet resistant to low temperature

Czech constant temperature cabinet resistant to low temperature

We design and manufacture electrical cabinets for areas with extreme temperature conditions, both in high and in low temperature.

The cabinets have a temperature range of 0°C to + 70°C and an Air humidity range 10% to 98%. In addition, the cabinets are very precise in their control, accurate in achieving the values and very ...

With a range of 10°C to 70°C, the cabinet can provide consistent temperatures to within 0.1°C, with minimal fluctuations. This level of precision is necessary for many types of experiments ...

Model KBF-S ECO 1020 | Constant climate chambers with environmentally friendly thermoelectric cooling Temperature range: 0 °C to +70 °C (max. 24 °C under ambient temperature)

With their highly efficient refrigeration system and outstanding thermal insulation, ESPEC's constant climate cabinets are ideal for use in laboratories and research facilities.

Constant Temperature Humidity Test Chambers test products performance to withstand extreme temperature and humidity by simulating harsh climate conditions, it can analyze and evaluate ...

Constant climate chambers are available in different sizes and with different temperature and humidity ranges.

These new programmable cabinets with a precise system of temperature and humidity control, which provide various necessary environmental simulative conditions for industrial research and ...

Types of constant temperature and humidity cabinets There are multiple constant temperature and humidity cabinet types with properties fit for specific applications in medicine, biology, industry and ...

With their highly efficient refrigeration system and outstanding thermal insulation, ESPEC's constant climate chambers are ideal for use in laboratories and research facilities.
