

Direct Fusion Fiber Distribution Box 48 Cores

Direct Fusion Fiber Distribution Box 48 Cores

The 48-Core Fiber Terminal Box is a versatile, high-capacity solution for FTTx applications, offering secure splicing, distribution, and durable protection.

With the function of the mechanical splice, fusion splice, light splitting, and wiring distributions. The fiber access terminal box is with Anti-UV, Ultra violet resistant, rainfall resistant, IP65 waterproof design, ...

This fiber optics distribution box terminates one fiber optic cable, offers spaces for splitters and up to 48 fusions, allocates 12 SC adapters, and works in outdoor environments.

48-core Metal Fiber Distribution Box HJ-GF-KJW-48C adopts a separate fusion-splicing and distribution structure, with fusion splicing and fiber distribution functions.

48 Core fiber optic distribution box is able to hold up to 48 subscribers. It is used as a termination point for the feeder cable to connect with drop cable in FTTx network system. It integrates fiber splicing, ...

It has compartments separated by a distribution panel of up to 48 optical fibers and allows the installation of the cables by means of fusion or direct connection.

48 ports Distribution Box is designed for FTTH application, apply for common cable connecting with drop cable/pigtail and optical splitter.

Gpon Fiber Distribution Box Outdoor, 48 Cores Fusion Splice, 1 Cable Gland, 2 Uncut Ports, 24 Round Ports For FttH Drop Cables

The FDB-48 Series 48-port Fiber Distribution Box is suitable for FTTH projects and can be used in corridors, basements, rooms, and on building exteriors. It has functions like mechanical splicing, ...

Available for indoor wall-mount or outdoor pole/wall installation, each enclosure supports fusion splicing, adapter patching, and PLC splitter mounting to streamline feeder-to-drop distribution with neat cable ...
