

Distributor of 200G Liquid-Cooled Switches

Distributor of 200G Liquid-Cooled Switches

We deliver reliable, high-quality liquid cooling solutions plus critical, embedded, and custom power products to power the data center.

NADDOD's 800G/400G/200G immersion cooling transceivers, featuring advanced sealing technology and compatibility with industry-standard fluids, deliver efficient heat dissipation and reliable data ...

Explore our end-to-end liquid cooling solutions for AI, high-density IT, and sustainable thermal performance.

A full suite of liquid cooling options is now available across our data centre portfolio, capable of meeting the demands of the most powerful AI and high-performance workloads.

We will break downs on unit volumes, supplier market share and cost for over 50 different subcomponents of the GB200 rack. Furthermore, we will dive into the hyperscale customization that ...

High-density 200GE/100GE switches featuring high buffer and millions of routing entries. A single chassis provides up to 144x 100GE ports or 72x 200GE ports, supporting flexible port configuration ...

Distributor of time delay magnetic switches for engines and electrical motor applications. Liquid level, float, ignition, temperature, pressure, rocker, and push-pull switches are offered.

Cisco is actively innovating in direct-to-chip liquid cooling for high-performance switches, laying the groundwork for solutions that will enable seamless and scalable AI at unprecedented ...

C& K works closely with some of the biggest brands in the world to build customized switches to meet precise customer requirements for haptic touch, look, sound and other unique features.

FS 100/200G bare metal switches with high-performance switch chip provides powerful hardware switching capacity and data center features (supporting stacking, MLAG, PFC, ECN, VxLAN, EVPN, ...)
