

Fiber Fiber e2000

Fiber Fiber e2000

E2000 Optical fiber connector has the advantages of more convenient plugging and insertion, low insertion loss and high compressive strength. It is one of the indispensable connecting devices in ...

E2000 is an optical fiber plug connector, with a 1.25 mm ferrule, available for both single mode and multi-mode applications, featuring a spring-loaded shutter and dust-cap.

This E-2000® SM Premium UPC 0.1 dB Gen 2 blue connector features a one-piece design for quick termination, color and mechanical coding, and switchable duplex clips, making it ideal for HighPower ...

Yes, you will need a Compact Duplex Clip and need to replace the two Simplex Connector Levers with a Duplex Lever. The E-2000™ Connector offers a spring-loaded shutter mechanism that protects the ...

The E2000 fiber optic connector meets the working environment of -40-85 °C, with an average of more than 500-1000 insertion and removal tests, with stable performance and reliable quality.

mechanical and optical interfaces, the E-2000™ fiber optic connector family can cover the most standard and customized requirements in response.

The E-2000® connector, invented by DIAMOND, delivers unmatched reliability and precision in fiber-optic interconnects - making it the ideal choice for critical transmission points across telecom, ...

OPTICOM® E2000 fibre optic products provide a flexible and modular system with components for fibre termination, splicing, and patching in all applications with superior patch field access, easy ...

The E-2000 is an optical fiber plug connector with push-pull locking mechanism and a self-closing dust protection flap. The connector is available for both singlemode and multimode applications.

Accurate alignment: Provide precise fiber slow axis alignment technology for specific needs, such as polarization maintaining fiber jumpers. Wide compatibility: Compatible with various optical ...
