

Fiber Optic Cable Bundle

Fiber Optic Cable Bundle

XSOF designs and manufactures high-performance fiber optic bundles and arrays tailored to your specific requirements. Our assemblies are composed of multiple optical fibers, providing enhanced ...

Fiber optic bundles consist of multiple optical fibers grouped together to transmit light signals simultaneously. These bundles are integral to various applications, including imaging systems, ...

For some applications, some number of optical fibers is bundled together, forming a fiber bundle or fiber-optic bundle. In most cases, one uses multimode large-core silica fibers or plastic fibers.

Custom-assembled optical fiber bundles for laser, sensing, and UV applications - precise light distribution and reliable beam guidance for demanding environments.

Our stock fiber optic bundles are terminated with SMA905 connectors and are offered with high OH fiber, low OH fiber, and our mid-IR fluoride optical fiber (for 285 nm - 4.5 μm). Our bifurcated optogenetics ...

Many of our customers' products, systems or manufacturing processes require using a fiber optic cable assembly to allow the opto-electronic sensing components to be positioned remotely while ...

2-D fiber optic bundle, or fiber bundle optics, such as the linear fiber bundle, uses flat-bottom groove and lid to stack multiple fibers tightly together in a rectangular or circle arrangement.

Find the perfect Fiber Cables & Bundles for your optical application from over 120 suppliers worldwide. Discover a vast selection of single mode and multimode fiber optic cables, as well as bundled fiber ...

2-piece kit Fiber optical thermal stripper M8 & fiber optical cleaning clip compatible with bare fiber/bundle and ribbon fiber for 1-48 core dual heating mode and 8-level temperature regulation.

FiberTech Optica delivers fiber optic bundles to meet almost any requirement. With virtually no limit on the number of fibers, all of our fiber optic bundles can be configured as spot, line, grid, hex, or ...
