

Fiber Optic Transceiver Module Single Mode

Fiber Optic Transceiver Module Single Mode

PLANET's Small Form Factor Pluggable (SFP) transceiver modules are specifically designed for high performance integrated duplex data link over single mode optical fiber. Network administrators can ...

High-performance Single Mode Fiber Optical Transceiver Module with 25G speed, 40km range, and 1310nm wavelength. Reliable, cost-effective, and compatible with industry standards.

Improve safety, signal integrity, and reliability by using two optical fibers instead of wire to transfer bidirectional serial data using single-mode optical fiber.

Single Mode Fiber Optic Transceivers are essential components in high-speed, long-distance data transfer networks. Their ability to support high data rates, reach, and reliability make them ideal for ...

These Singlemode SFP Transceivers are designed to meet the needs of various network applications, from data centers to enterprise and telecom networks. Their long-distance capabilities make them ...

100% MSA UNCODED SFP TRANSCEIVER:
Designed, programmed and tested to work with compatible MSA Compliant switches and routers to deliver reliable 1GbE connectivity

The transceiver is available as a mini-GBIC form factor, making it ideal for environments that require many fiber connections by taking up less space in your cabinet and/or computer room.

Learn what a single mode SFP transceiver is, how it works, key specs, common types, and real-world use cases for long-distance fiber optic networks today.

Discover high-performance single mode SFP modules for your network. Compatible with major brands like Cisco, Ubiquiti, and more.

Mouser offers inventory, pricing, & datasheets for Singlemode Fiber Optic Transmitters, Receivers, Transceivers.
