

Fiber optic cable under Portugal

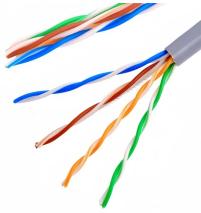

Overview

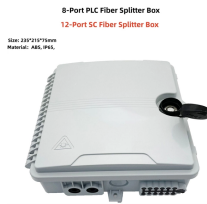

EllaLink connects Europe and Latin America via a direct submarine cable from Sines, Portugal to Fortaleza, Brazil — lowest transatlantic latency. The Submarine Cable Map is a free and regularly updated resource from TeleGeography. By doing so. Today, we're announcing Sol, a new transatlantic subsea cable system to connect the U., Bermuda, the Azores, and Spain. Alongside the Nuvem subsea cable, Sol completes our unique. The EllaLink cable is not merely a collection of wires resting on the ocean floor; it is a sophisticated engineering feat designed to facilitate high-capacity, low-latency data transfer between Europe and South America.

Fiber optic cable under Portugal

EllaLink connects Europe and Latin America via a direct submarine cable from Sines, Portugal to Fortaleza, Brazil — lowest transatlantic latency.

Today, we're announcing Sol, a new transatlantic subsea cable system to connect the U.S., Bermuda, the Azores, and Spain. Sol translates to “sun” in Spanish and Portuguese, a nod to the ...

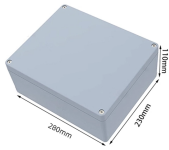

The EllaLink fiber optic cable is a new submarine cable system that connects Europe and South America, specifically Portugal and Brazil. It provides high-capacity connectivity and low latency ...
