

Fiber optic switch connected to EMC

Fiber optic switch connected to EMC

QuickSwitch® Fiber Optic QuickSwitch® Remotely Controllable Fiber Optic Switches to support such applications as Commercial Networks, Industrial Networks, and MiL Spec Operations.

With ultra-low electromagnetic radiation and superior EMI immunity, it's built for demanding applications such as EMI/EMC testing, automotive communication, ...

This guide provides site preparation recommendations, step-by-step procedures for rack mounting and desk mounting, inserting modules, and connecting to a power source. CAUTION: To avoid ...

Montena MOL25T optical link is designed for the transmission of electric signals from DC to 25 MHz in harsh electromagnetic environment.

This industrial fiber optic media converter is designed to extend two 4 Wire Voice Frequency Signals over fiber optic cable. This system also features bi-directional contact closure for remote relay or ...

We offer solutions that provide seamless transmission and conversion from Ethernet media to multimode or singlemode fiber. Our Ethernet network switches with fiber ports comes in managed or ...

If the switch is installed in an EMC EC-1200 or EC-1100 Connectrix cabinet, route singlemode or multimode fiber-optic cables (depending on the type of SFP pluggable optic transceivers installed) ...

The optoLAN-Gb 88Q2112 system provides bidirectional optical transmission for 1000Base-T1 and 100Base-T1 signals. Featuring high-quality Rosenberger HSD connectors and a shielded case, it's ...

The two identical transceivers are supplied by internal batteries and connected with an optical fiber. With the optical transmission and the shielded case, the system is well equipped for EMI and EME tests.

Choose from our selection of fiber optic ethernet switches, including DIN-rail mount ethernet switches, light duty ethernet switches, and more. Same and Next Day Delivery.

This solution can be deployed with a single active optical cable (AOC) with integrated QSFP28 and SFP28 transceivers or by a passive fiber breakout cable/multiplexer.

8Gb/s Entry-level Fibre Channel Switch
Connectrix® DS-300B provides a cost-effective, flexible foundation for entry-level SANs and can serve as an edge switch for core-to-edge SAN environments.
