

Fiji Opsens Fiber Optic Sensor

Fiji Opsens Fiber Optic Sensor

Fiber optic sensors manufacturer offering solutions for interventional cardiology Fractional Flow Reserve FFR, Oil and Gas and industrial applications.

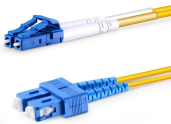

Opsens'' founders are known to have pioneered the use of white-light interferometry for fiber optic sensing and to have brought this type of sensing technology to the industrial sensors marketplace.

Opsens Solutions, fiber optic temperature sensor, pressure transducer, displacement probe, strain gauge. High accuracy and repeatable optical temperature sensors for your needs. Opsens Solutions ...

This comparison with OpSens, a respected provider of optical fiber sensor technology, will showcase why FJINNO''s fluorescence-based approach is the superior choice for many ...

Combined with Opsens Solutions'' SCBG (Semiconductor Bandgap) signal conditioning technology and with the inherent advantages of fiber optic, the OTG-M Series delivers unprecedented repeatability ...

Opsens Solutions OPP series fiber optic pressure transducers are designed to provide accurate pressure measurement in the most adverse conditions. Its small size and EMI/RFI/MRI immunity ...

Designed especially for demanding hazardous environments, it is encased in robust inconel-718 housing for applications requiring a rugged sensor. The OPP-W delivers in- situ and ...

List of optical-fiber-sensor companies, manufacturers and suppliers serving Fiji

OpSens Solutions delivers a high-end fiber optic sensing solution to Oil & Gas producers, providing them with reliable real-time downhole pressure and temperature information about their oil wells ...

Opsens Solutions' OPP-C, MEMS-bases fiber-optic pressure sensor, is perfectly tailored to meet the challenges of pressure monitoring applications in submerged and/or harsh environments.
