

Free US quote for 800G DAC high-speed cable

Overview

6T DAC/AOC cables are compliant with MSA and IEEE standards for guaranteed compatibility and optimal performance and suitable for servers, switches, storage, etc. Purchase from nearby warehouses. The 800G DAC cables deliver cost-effective, ultra-low-latency direct-attach connectivity for high-density data centers and HPC environments. Compatible with common 800G form factors (OSFP and QSFP-DD800), our cables are factory-tested and supplied with EEPROM programming and electrical test reports. Professional-grade 800G interconnect solutions designed for next-generation AI and high-performance computing (HPC) environments. This collection features ultra-reliable 800G OSFP and QSFP-DD800 options, including Active Optical Cables (AOC) for long-reach flexibility, Active Copper Cables (ACC). OSFP Cables (OSFP DAC Cables) by Amphenol Now In-Stock at Speeds up to 800. Built for modern data centers, these DAC cables deliver blazing speeds and exceptional efficiency, combining powerful data transmission with smart energy usage - all in a compact design that maximizes your space. 800G QSFP-DD800 OSFP passive copper cable assembly doubles the number of 25G NRZ & 50G PAM4/lane from 4 to 8 lanes compared to QSFP cabling systems.

Free US quote for 800G DAC high-speed cable

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.

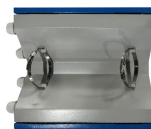

Our OSFP Cable line-up is OSFP MSA compliant and protocol agnostic for worry-free integration into 200/400/800-Gigabit Ethernet and InfiniBand networks.

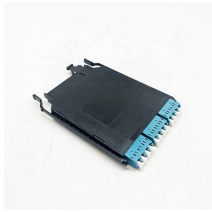

800G QSFP-DD800 OSFP passive copper cable assembly doubles the number of 25G NRZ & 50G PAM4/lane from 4 to 8 lanes compared to QSFP cabling systems.

Built for modern data centers, these DAC cables deliver blazing speeds and exceptional efficiency, combining powerful data transmission with smart energy usage - all in a compact design that ...

The 800G OSFP DAC are used for intra-rack or inter-rack interconnections within data centers and are compliant with the IEEE 802.3ck 800GBASE-CR8 Ethernet transport protocol, as well as compatible ...

10Gtek 800Gb/s OSFP DAC, 8-Channel OSFP Fin-top Breakout to 2x400G Flat-top Cable, NDR Infiniband and Ethernet Solutions Model: O2O-8XND-PxM US\$115.00 Add to Cart

High-performance AOC, ACC, and DAC cables for 800G OSFP and QSFP-DD800 networks. Ideal for AI clusters and data centers. Low-latency, tested reliability, and multiple breakout options available.

Compatible with common 800G form factors (OSFP and QSFP-DD800), our cables are factory-tested and supplied with EEPROM programming and electrical test reports on request.

I ordered several 800G DAC cables for switch testing and am extremely satisfied with the high quality and high-speed performance of these ...

FS 800G/1.6T DAC/AOC cables are compliant with MSA and IEEE standards for guaranteed compatibility and optimal performance and suitable for servers, switches, storage, etc. Purchase from ...

I ordered several 800G DAC cables for switch testing and am extremely satisfied with the high quality and high-speed performance of these cables. They are reasonably priced and were delivered promptly.
