..

GRP cable trays are significantly lighter than metal
cable trays. They are highly resistant to corrosion,
making them ideal for harsh environments. GRP
cable trays provide excellent electrical insulation.
...

Unlike traditional steel trays, FRP cable trays do
not rust or corrode, require no grounding, and
have excellent fire and UV resistance for long,
maintenance-free service.

Made from the highest quality pultruded materials,
our Fiber Reinforced Polymer (FRP) cable tray is
extremely durable and resistant to chemical
attack, with a proven record of performance in the
most ...
