

Grenada Micro Modules

Overview

It is established to assist with the development of green finance products that facilitate access to sustainable, low-cost energy or adaptation technologies for Micro, Small and Medium Enterprises (MSMEs) and low-income households in Latin America and the Caribbean (LAC). The Tracker provides a comprehensive and interactive overview of SMR projects under development worldwide. It includes more than 70 projects at various stages of progress, from initial site preparation through to operation, as well as over 50 key pre-project agreements and related developments. 05, 2025 (GLOBE NEWSWIRE) -- Terra Innovatum Global N. ("Terra Innovatum" or the "Company") (NASDAQ: NKLR), a developer of micro-modular nuclear reactors, today announced that Terra Innovatum S. has signed an agreement with ATB Riva Calzoni ("ATB"), a global supplier and. The EcoMicro Program (EcoMicro) is a Technical Cooperation Facility executed by the Inter-American Development Bank's IDB Lab and co-financed by Global Affairs Canada and beneficiary financial institutions. The Headquarters of the Agency are situated in Vienna. To learn more, feel free to contact us on sales@6wresearch.
