

High Temperature Resistant Distribution Box Wires

Overview

Rated to 17, 000 volts AC or higher, this cable is often used in oil drilling, robotics, and festoon systems. It withstands continuous motion without degrading data or signal transmission. With a flat shape, it's

High Temperature Resistant Distribution Box Wires

Metal Resource Solutions is a stocking distributor of heat resistant wire and wire rod. These hi-temp alloys are typically used in furnace parts, annealing boxes, chemical processing equipment, belting ...

OmniCable's selection of high-temperature cables, including heat-resistant, flexible, and single-core options for power, control, and high-temp applications in extreme environments.

Radix is the leader in high temperature wire and cable solutions to meet the most challenging and severe environments.

Available in power, control and instrumentation, motion control, igniter, thermocouple, and RTD configurations, these cables feature durable glass-braid jackets, abrasion-resistant finishes, and high ...

We offer a comprehensive selection of high-temperature wires, expertly designed to meet the rigorous demands of applications exceeding 150 degrees Celsius.

These lead high-temperature electrical wire products are shielded by braided silicone rubber, PVC, or fluoropolymers and engineered to perform at extremely high temperatures. We have assembled an ...

Mesh door/glass door optional

Sp-601 glass door Sp-602 mesh door

Discover all our range of products and download all the documentation you need for your projects. OMERIN USA manufactures a full range of high temperature cables in silicone, ETFE, FEP, PTFE, ...

These lead high-temperature electrical wire products are shielded by braided ...

High-temperature cable constructions, from conductor to insulating system, are rated 125°C, 150°C, 200°C, 250°C, 450°C and 550°C. Products include braided, braidless silicone (SRML), TGGT and ...

Flex Wires is the leading manufacturer of high temperature wire in California, providing wires for power distribution in high temperature operations. High temperature wire is used in internal and external ...

Galaxy is a leading supplier of custom and stock high temperature wire and high temperature cable that can be used in temperatures up to 1,200°C.

Choose from our selection of high-temperature wire, including over 225 products in a wide range of styles and sizes. Same and Next Day Delivery.
