## Honduras S40A Relay Protection Tester

View and Download Ponovo S40A user manual online. Three-Phase Relay Tester. S40A test equipment pdf manual download.

This model relay test equipment is designed with 3 currents (3\*40A) and 3 voltages (3\*300V).The relay test system is easy to use and quick in process with the help of local control and ready test modules.

Type Break capacity ac Break capacity dc Binary output,relay 1 Potential free relay contacts, software controlled Vmax: 300Vac Imax: 1A Vmax: 300Vdc Imax: 1A Power supply Nominal input voltage ...

S40A is a type of 3-phase protection relay test kit, with 3×40A, 3×300V, and also a local control system. It is a portable and economic secondary injection tester, and easy to use.

Engineered for field and laboratory applications, the S40A provides stable output, precise control, and reliable test results, making it an ideal choice for protection engineers and maintenance professionals.

Number 1 Type Potential free relay contacts, software controlled Break capacity ac  $V_{max}$ : 300Vac / $I_{max}$ : 1A / $P_{max}$ : 125VA Break capacity dc  $V_{max}$ : 300Vdc / $I_{max}$ :1A / $P_{max}$ : 60W. Power supply.

This model relay test equipment is designed with 3 currents (3\*40A) and 3 voltages (3\*300V).The relay test system is easy to use and quick in process with the help of local control and ready test modules.

The Ponovo S40A is a Universal Test System that can be used as a G59 and other simpler relay testing functions such as a Secondary Injection Test Set.

S40A is an ideal secondary injection tester for all power utilities, power plants, relay manufactures, panel manufactures, research institutes, universities, testing companies, etc.
