

How to connect the power supply to the Huawei fiber optic panel

Overview

Insert the 2-pin connector of the 2-pin DC power cable into the DC power input port of the device, and connect the other end to the 60 W AC power module PAC-60WB. This document shows you the EG8247H5, and how to install it. Figure 2-1 Cable connection diagram The fiber connector connected to the optical port on the wall varies depending on actual conditions. The OLT features two power slots labeled as Power A and Power B for dual power supply. The power supply involves a rectifier that. However, setting up a fiber optic connection to your router can seem daunting if you're unfamiliar with the process. Connect the M6 lug of the ground.

How to connect the power supply to the Huawei fiber optic panel

After hybrid cables 2.0 are made onsite, you are advised to use a red pointer and an optical fiber adapter to check whether optical fibers are broken or not. When routing a hybrid cable 2.0, coil the excess ...

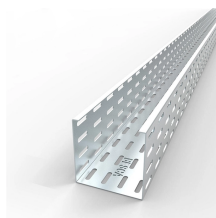

Insert the 2-pin connector of the 2-pin DC power cable into the DC power input port of the device, and connect the other end to the 240 W AC power module PAC240S56-CN.

Insert the 2-pin connector of the 2-pin DC power cable into the DC power input port of the device, and connect the other end to the 60 W AC power module PAC-60WB.

If the Power light is off, check that the Huawei ONT is connected correctly using the supplied power cable. The unit should be connected to a power supply and the status light on the unit should be green.

Step 1 Check whether the component installation is in compliance with the instructions shown in the following figure and table.

Strip the sheath at both ends of the power cable, cut the power wires stripped from the power cable, and reserve a length of 4-5 cm. Route the cable through the waterproof PG connector, as shown in the ...

The fiber connector connected to the optical port on the wall varies depending on actual conditions. To ensure normal use of fibers, make sure that the fiber bending radius is larger than 30 mm. There is a ...

The video demonstrates how the power supply is connected to the Huawei GPON OLT model 5683. The OLT features two power slots labeled as Power A and Power B for dual power supply.

Connect the fiber optic cable: Plug one end of the fiber cable into the wall outlet and the other into the ONT's designated port. Power on the ONT: Use the provided power adapter.
