

How to replace the laser diode in a robot vacuum cleaner

Overview

We'll show you how to disassemble the robot, clean and dry the components, and replace any damaged parts. By the end of this video, you'll have a better understanding of the repair process and may even be inspired to tackle your own DIY repair project. This guide will show you how to replace the Laser Distance Sensor (LDS or LiDAR) of Roborock's robotic vacuum S7. Enjoy the videos and music you love, upload original content, and share it all with friends, family, and the world on YouTube. Avoid being entangled, stuck, dragged or knocked down by the main unit.
