

Huawei Switch 1 Fiber Port and 4 Ethernet Ports

Overview

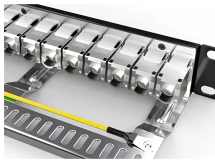

S5731S-L4T2S-RUA (4*10/100/1000BASE-T ports, 1*GE SFP port, 1*GE port with an SC connector, TX1310 nm/RX1490 nm, AC power, power adapter) The Huawei CloudEngine S5731S-L4T2S-RUA is an essential, ultra-compact Gigabit Remote Unit (RU) designed for simple and cost-effective. S5731S-L4T2S-RUA (4*10/100/1000BASE-T ports, 1*GE SFP port, 1*GE port with an SC connector, TX1310 nm/RX1490 nm, AC power, power adapter) The Huawei CloudEngine S5731S-L4T2S-RUA is an essential, ultra-compact Gigabit Remote Unit (RU) designed for simple and cost-effective. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. S5735-S24P4X is the Huawei S5735-S switch with 24 x 10/100/1000BASE-T ports, 4 x 10 GE SFP+ ports, and PoE+. Huawei CloudEngine S5735-S is a series of standard gigabit access switches that provide 24-48 flexible all-GE downlink ports and four fixed 10 GE uplink ports. It features 24 Gigabit Ethernet (GE) ports for connecting devices like computers, VoIP phones, IP cameras, and wireless access points, and 4 SFP+

ports. * Integrates 48 Gigabit Ethernet ports (supporting PoE++, delivering up to 60W per port) and 4 Gigabit SFP uplink slots in a single compact unit. * Offers robust Layer 3 switching performance with versatile OS options (CloudEngine or LiteOS) for diverse network environments. Designed for medium to large-scale.

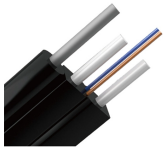

Huawei Switch 1 Fiber Port and 4 Ethernet Ports

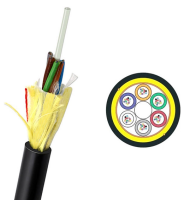

Huawei campus switches are ideal for building future-proof campus networks with simplified management, high reliability, and service intelligence, across industries such as enterprises, ...

Thunder link offers various models of Huawei Ethernet switches and network switches, including the S5720, S6720, S6730, CE6800 and CE12800, designed for data centers and campus networks. ...

Based on cutting-edge hardware and Huawei Versatile Routing Platform (VRP) software, the S5700 provides a large switching capacity, high reliability (double ...

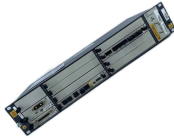

The Huawei S310-24P4X is a managed Gigabit Ethernet switch for powering and connecting PoE devices within a network. It features 24 GE ports and 4 SFP+ ...

A Huawei 4-port switch is a compact network switch designed to connect up to four Ethernet-enabled devices, making it ideal for small offices, home networks, surveillance systems, and edge networking ...

The Huawei S310-24P4X is a managed Gigabit Ethernet switch for powering and connecting PoE devices within a network. It features 24 GE ports and 4 SFP+ ports, supports PoE+ standard, and ...

Huawei CloudEngine S5735-S is a series of standard gigabit access switches that provide 24-48 flexible all-GE downlink ports and four fixed 10 GE uplink ports. They are designed for enterprise campus ...

The Huawei eKit S220-48P4X is a high-performance 48-port Gigabit Ethernet switch with Power over Ethernet (PoE+) support and 4 x 10G SFP uplink ports, making it an ideal solution for enterprise ...

Huawei CloudEngine S5735-S is a series of standard gigabit access switches that ...

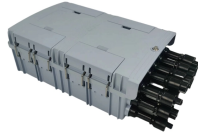

Cost-Effective Gigabit Expansion: Provides 4 dedicated Gigabit Ethernet ports for high-speed wired connectivity without the added cost of PoE components. Dual SFP Uplinks: Equipped with 2 x GE ...

* Integrates 48 Gigabit Ethernet ports (supporting PoE++, delivering up to 60W per port) and 4 Gigabit SFP uplink slots in a single compact unit. * Offers robust Layer 3 switching performance with ...

Based on cutting-edge hardware and Huawei Versatile Routing Platform (VRP) software, the S5700 provides a large switching capacity, high reliability (double power slots and hardware Ethernet OAM), ...

Huawei S5731-S32ST4X-A switch features 8x1G, 24xSFP, and 4x10G ports with 256Gbps capacity. Ideal for campus & metro networks, with 3-year warranty.
