

Inquiry about anti-tracking GPON equipment in Ecuador

Overview

All devices that emit radiofrequency or connect to public telecom networks—such as smartphones, Wi-Fi routers, Bluetooth devices, GPS trackers, and other wireless-enabled electronics—must undergo type approval by ARCOTEL. The homologación process includes: We provide high-quality and reliable services for approval in Ecuador. Our affiliation with authorities in Ecuador and relationship with the Telecommunications Regulation and Control Agency, as well as our knowledge in the homologation of consumer wireless products, automotive and Short-Range. ARCOTEL Type Approval Certification ARCOTEL (Agencia de Regulación y Control de las Telecomunicaciones) is the regulatory authority responsible for overseeing and regulating telecommunications equipment in Ecuador. It also monitors spectrum usage to ensure compliance with country-specific. ☐☐ Did you know that nearly \$10 MILLION is spent annually on "No Name" OEM equipment in Ecuador's ISP market?

Imagine this: ☐☐ Over 45,000 units imported each year with no recognizable brand, unclear technical specs, minimal technical support, and unreliable

warranties.
