

## Integrator Smart PDU

## Integrator Smart PDU

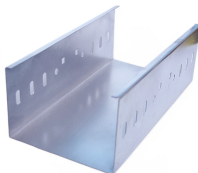

We provide PDU solutions for every level of infrastructure. Our capacities span from 4kVA up to 140kVA, featuring proven 100+ amp capabilities to support the high demands of AI and advanced computing ...

Modular, compact intelligent PDU with inlet metering. Ultra-Low Profile Design. Reduce IP addresses by Daisy Chaining up to 64 PDU's.

Use this page to update PDU software. You can manually apply an update (if you receive an update file) or have the PDU automatically fetch the latest software and install it.

Smart PDUs can provide environmental monitoring such as temperature sensing, supporting improved reliability in non-conditioned environments. Integrated surge protection provides an additional layer of ...

Optimise power management with our Smart PDUs. Remote monitoring, control, and energy efficiency for seamless operations up to 100amp per unit.

Remote power control solutions for data centers, telecom & industrial sites. Intelligent PDU with real-time monitoring. Factory-direct, globally certified.

W Series 1-Phase intelligent PDUs can be integrated with your rack to provide power management, including monitoring of individual outlets or top-level circuits. Switched PDU models are also ...

Our PDUs are equipped with state-of-the-art sensors and AI-driven analytics. This technology enables precise monitoring of power usage and environmental conditions, contributing to proactive ...

However, unlike traditional Power Distribution Units (PDUs), an iPDU goes beyond basic power delivery by incorporating intelligent features and network connectivity, allowing for real-time monitoring, ...

Managing and installing a rack power distribution unit (PDU) has never been easier than with the EL2P PDU. Designed to simplify deployment and take stress out of power distribution, this intelligent PDU ...
