

## Lighting distribution box dimensions

### Overview

These are the standard rectangular boxes you often see used for single light switches or electrical outlets in US homes. Their dimensions are generally around 2 inches wide by 4 inches tall, with depths varying from 1-1/2 inches to 3-1/2 inches. Selecting the correct size of electrical junction box is a critical decision for any electrical project in the United States, directly impacting safety, code compliance with the NEC, and the functionality of your wiring. The article includes table references that guide the electrician in the selection of the proper box size necessary to safely accommodate electrical service requirements.

## Lighting distribution box dimensions al
