

Low-temperature resistant spiral wound pipe for industrial parks

Overview

This is a multilayer spiral wound continuous shrink tubing and this guarantees a superior dielectric strength and mechanical resistance. The positioning and heat shrink process (few seconds) enables extensive use of automatic production equipment. Spiral HDPE Pipe manufactures a spirally wound structured wall pipe from PE-HD, known as SPIRAL Structured Wall HDPE Pipe. The SPIRAL Structured Wall HDPE Pipe system is economical and competitive, as the structured wall concept creates a pipe with superior ring stiffness, utilizing considerably. THERMACOR'S SPIRAL-THERM is a metal jacketed, factory-fabricated, pre-insulated piping system for above ground, shallow concrete trench, and tunnel piping applications. The HPG gasket has been designed as a direct, cost effective replacement for conventional spiral wound gaskets.

Low-temperature resistant spiral wound pipe for industrial parks

The High Performance Gasket (HPG) is a semi-metallic spiral wound gasket capable of providing class leading sealing performance across a wide range of industrial sealing applications.

ISO 9001 & ISO 14001 certified manufacturer of industrial pneumatic equipment & components including spirallywound plastic tubes. Types include standard single spirallywound tubes ...

All Class 150 & 300 Durlon® SWG styles have been engineered to precise manufacturing tolerances and utilize optimal winding density that allow for lower stress (bolt load) sealing compared to ...

THERMACOR'S SPIRAL-THERM is a metal jacketed, factory-fabricated, pre-insulated piping system for above ground, shallow concrete trench, and tunnel piping applications.

Thanks to its spiral-wound corrugated structure, it provides excellent resistance against underground loads. Tested in accordance with the TS EN ISO 9969 standard.

HDPE/PP profiled spiral wound pipe systems, available in various stiffness classes, are designed for utility and industrial applications. These pipes are made from high-density Polyethylene (HDPE) or ...

Here, a homogeneous plasticized tape is wound in a spiral on an inner core (steel core) and connected to one another by overlapping. The fixed inner core ensures a constant inner diameter (DN) even ...

This is a multilayer spiral wound continuous shrink tubing and this guarantees a superior dielectric strength and mechanical resistance. The positioning and heat shrink process (few seconds) enables ...

HIGH PRESSURE GALVANIZED PIPE HIGH PRESSURE PRODUCT DIAGRAM LOW PRESSURE GALVANIZED PIPE LOW PRESSURE PRODUCT DIAGRAM PVS UNDERGROUND PIPE PVS ...

THERMACOR SPIRAL-THERM THERMACOR'S SPIRAL-THERM is a metal jacketed, factory-fabricated, pre-insulated piping system for above ground and tunn. piping applications. The system is ...
