

## MMC Optical Cable Procurement

### Overview

US Conec offers training, certification, and technical support to ensure high-quality MMC cable assemblies. Helping data centers optimize space and density to meet AI-driven demands for increased capacity and performance, the Molex MMC system leverages a very small form factor (VSFF) design to achieve higher density within the same footprint. MMC Cable Assemblies and Adapters are available with 16 or 24. Emerging optical networking requirements driven by AI architectures, state of the art switching technology, and transceiver bandwidth advancements are exceeding the capabilities of legacy optical cabling infrastructure in the data center. Continental Optronics is proud to announce our support and production of MMC Connector Solutions—the latest innovation in ultra-high-density fiber connectivity developed by US Conec. Cable jackets are. When every square inch matters, MMC helps you reclaim space without compromising performance. Contact Us to Learn More Organize and manage MMC-16.

## MMC Optical Cable Procurement

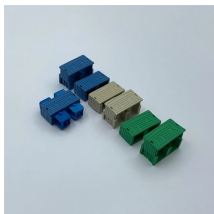

With decades of experience in fiber-optic cable assembly and custom connectivity solutions, Continental Optronics brings manufacturing discipline, rapid execution, and engineering support to the MMC ...

US Conec's MMC connector is a Very Small Form Factor (VSFF) multi-fiber optical connector designed for termination of single-mode and multimode fiber cables up to 2.5mm in diameter. The MMC ...

US Conec has established a strong supply chain and ecosystem for deployment of high-quality MMC connectors. US Conec offers training, certification, and technical support to ensure high-quality MMC ...

MMC connectivity enables solutions that minimize the space required across multiple applications, including structured cabling, high fiber count data center interconnects, and high-bandwidth ...

MMC Cable Assemblies and Adapters are available with 16 or 24 fibers, providing higher cabling port density and low-loss performance in a compact design to support high-bandwidth applications.

DMSI's new high-performance cable assemblies features US Conec's cutting-edge VSFF (Very Small Form Factor) optical connector, MMC24. Available in both single-mode and multimode ...

Harnesses are available in both single-mode and multimode applications, along with both MMC-16 and MMC-24 connectors. Cable jackets are available in any color and length. Harnesses with MTP legs ...

WCFO is proud to announce the successful completion of US Conec's MMC certification. As the wave of AI and ML is sweeping the globe, demand for hyperscale data centers using high density fiber ...

We are here to help you explore solutions with Panduit. Contact us for inquiries or quote requests.
