

Namibia ODM Transimpedance Amplifier 25G

Namibia ODM Transimpedance Amplifier 25G

Choosing the right amplifier requires an understanding of the relationship between an amplifier's GBP, the desired transimpedance gain and closed-loop bandwidth, and the input and feedback capacitances.

The portfolio includes transimpedance amplifiers (TIAs) supporting data rates up to 43 Gb/s for optical fiber communications applications. MACOM serves customers with a broad product portfolio that ...

Product Introduction: The ms52000 is a high sensitivity burst across impedance amplifier that meets the convergence time and burst dynamic range requirements ...

Semtech offers a broad portfolio of fully integrated BiCMOS and pure CMOS transimpedance amplifiers (TIAs) providing wideband, low noise pre-amplification ...

TIA Products Transimpedance Amplifiers

Mouser offers inventory, pricing, & datasheets for Transimpedance Amplifiers.

Mignal offers a portfolio of high performance Silicon Germanium (SiGe) and commercial CMOS transimpedance amplifiers providing wideband width, low noise, low power, and guaranteed quality ...

In my daily business I would call that quite low gain, because I'm using transimpedance resistors of 1G to 25G typically. Low current consumption ...

Transimpedance amplifiers parameters, data sheets, and design resources.
