

New Portuguese PLC splitter directly supplied by manufacturer

Overview

Symmetrical PLC splitter with 1:64 optical power split in 0.9mm pigtail sheath in steel box housing with LC/APC connectors. Splitters in steel box housing are. PLC splitters are split or combine light from one or two incoming fibers to multiple numbers of outgoing fibers having 1 or 2 input channels and up to 64 output channels. They perform uniformly over a wide spectral range, with ultra-low losses. Hangzhou DAYTAI Network Technologies Co. Splitters are available with up to 64 outputs and are an ideal solution for passive optical networks. Deploying compact FS PLC Splitters to simplify your networks, perfectly fits your PON, EPON, FTTX, etc.

New Portuguese PLC splitter directly supplied by manufacturer

PLC splitters can split or combine light from one or two fibers into multi-outgoing fibers uniformly over a wide spectral range with ultra-low insertion loss and low polarization-dependent loss. Our splitters ...

FS PLC Fiber Optic Splitters, Bare/Blockless/ABS/LGX Splitter/Rack Mount Types, support 1xN light distribution, with low IL and PDL for high-reliability transmission.

This section provides an overview for plc splitters as well as their applications and principles. Also, please take a look at the list of 54 plc splitter manufacturers and their company rankings.

PPI Inc. is a leading company in the optical electronics industry that is gaining global attention for its splitter, which is key component for FTTH and AWG based on PLC technologies.

Made in our advanced factory, our splitters ensure reliable signal distribution with minimal loss, making them an ideal choice for a variety of telecom and data communication projects, At Matrix PT Tech ...

Splitters in steel box housing are supplied with ready connectors to be plugged into LC/APC fibre optic adapters on the panel of cabinets, patch panels or fibre optic boxes.

They perform uniformly over a wide spectral range, with ultra-low losses. Available in different packages like 250um, 900um, box or cassette, terminated with or without connectors.

Splitters are available with up to 64 outputs and are an ideal solution for passive optical networks.

Corning's QuickPath™ PLC optical splitters reduce insertion loss and deliver high performance. These devices enable more effective monitoring and management of optical networks. They are available ...

Fiber Optic PLC Splitter is Based on the Planar Waveguide Technology. It Provides a Low Cost Power Distribution Solution with Small Form Factor and High Reliability.
