

Optical Module lh05

Optical Module lh05

LH05 series AC/DC converter with wide input voltage range, high efficiency, high reliability, security, isolation and other characteristics, widely used in industrial and civilian facilities.

Example: OL-LH05-130-27V-40K-MD CCT Range complies to ANSI C78.377-2008 Thermally stable typical lumens ($\pm 10\%$) Rated life is based on 70% lumen maintenance, and engineering testing and ...

You can get components availability and pricing for LH05-10B05, view detailed information that including LH05-10B05 manufacturer, datasheets PDF, pinout, pin voltage, circuit diagram, schematic diagram, ...

LH05-10B05 by Mornsun is a module from the Transistors - IGBTs category, specifically engineered for high-speed and high-efficiency applications. The device offers low conduction losses due to an ...

Suitable for commercial, retail and institutional applications including gymnasiums, factories and warehouses. Die-casting aluminum enables sturdy structure and superior thermal performance. The ...

It offers good EMC performance, which meet IEC/EN61000-4, CISPR22/EN55022, UL60950 and EN60950 standards, and it's widely used in industrial, office and civil applications. For harsh EMC ...

Check stock and pricing, view product specifications, and order online.

Part #: LH05-10B05. Download. File Size: 811Kbytes. Page: 8 Pages. Description: LH series ----is a compact size power converter offered by Mornsun.. Manufacturer: MORNSUN Science& Technology ...

The module is designed with a through hole package and is compliant with RoHS guidelines. It is a single output regulated module, which is designed for low voltage applications like LED driving, ...

LH05-10B03 216Kb / 11P 5-25W, AC-DC CONVERTER LH05-10B03 811Kb / 8P LH series ----is a compact size power converter offered by Mornsun.
