

Pluggable Optical Module Manufacturer

Pluggable Optical Module Manufacturer

As a result, Acacia is now a leading supplier of coherent modules with multiple product families to support speeds from 100G to 1.2T, including a broad portfolio of 400G and 800G ...

The XPO pluggable module preserves the advantages of field pluggability, enabling quick replacement or upgrades of optical modules without servicing the entire switch and minimizing downtime.

Simplify the network by replacing an OLT chassis with a router-deployed pluggable module. Scale AI back-end and front-end networks with high-performance, reliable 400G to 1.6T pluggable optics ...

GIGALIGHT provides 100G, 200G, and 400G pluggable digital coherent optical transceiver modules (DCO) for data center interconnection (DCI), 5G backhaul, metro telecommunication, and other long ...

Get the pluggable module performance you need from the manufacturer of choice for major networking equipment vendors worldwide. Optimize your network by selecting from the most complete range of ...

Marvell solutions are shipping into top major hyperscale and telecom networks worldwide, providing unmatched leadership in the design, test, and volume manufacturing of high-performance coherent ...

InnoLight Technology has been a leading infrastructure enabler of cloud data centers, wireless networks, fiber-to-the-home, and metro up to long-haul optical networks ever since it was founded in April 2008.

MACOM designs and manufactures high-performance semiconductor products for the Telecommunications, Industrial and Defense, and Data Center industries.

Juniper offers a complete portfolio of standards-compliant optics including direct-detect and coherent optical transceivers, application-specific pluggables, and optical and electrical cables.

All of our products are produced with Molex's high-quality standards, delivering superior optical, electrical and EMI performance for network robustness. Furthermore, Molex is a one-stop-shop for ...
