

Seismic fasteners for cable trays

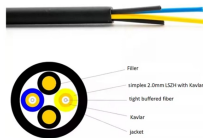

Seismic fasteners for cable trays

The innovative line of nVent CADDY Bracing Systems was developed to help keep fire sprinkler systems intact after a seismic event and minimize water damage.

Seismic Cable Bracing Systems for Lighting or HVAC designed & engineered to limit sway during a seismic event. Strong, easy to install, and cost-effective.

Connect cables directly to 3/8" threaded rod in trapeze installations for seismic bracing. Use 2 EZ BN 3/8 to attach cables to FAS PCH for sway bracing. Predrilled tabs allow attachment directly to concrete ...

Tested by an independent lab and stamped by a Professional Engineer, the seismic cable kits are designed to brace non-structural equipment and distribution systems to help minimize damage from ...

We offer a pre-engineered, time-saving solution which braces and secures non-structural equipment within a building to minimize damage from earthquakes or seismic events.

Explore seismic bracing solutions for cable trays. Catalog details wire rope/cable systems, specs, design for earthquake protection.

Secure non-structural equipment with Gripple TecLoc seismic cable bracing kits. Pre-assembled, high-strength components ensure fast installation and reliable performance in seismic or blast conditions.

This bracing kit is used to prevent damage to cable tray sections during earthquakes.

The Easy ex EF5CK Series Seismic Cable Restraint Kits are engineered to secure suspended non-structural components—such as ductwork, piping, conduit, cable trays, and HVAC ...

Eaton offers a wide variety of seismic and standard anchors and accessories for use with wood, concrete and steel for electrical and mechanical applications.
