

Some interfaces on the optical splitter are not working properly

Overview

The first step in troubleshooting your HDMI splitter is to check the cables. Try swapping the cables to see if the issue persists. Optical splitters in the outside plant (OSP) are used mostly in passive optical networks (PONs) for fiber-to-the-user (FTTx) networks, and are often overlooked as failure points. JayCee This sounds like it would do what you want. Unlike other transmitters, the MR270 uses the latest Bluetooth AptX Low Latency HD, to listen to high-quality sounds without any delay. Any thoughts?

Here's the setup: Splitter Port A > Optical Cable > Sound Bar (Works!) The second scenario (Cable > Converter > Wireless) works fine straight into the. Problems with Toslink splitters?
