

Tariff Costs of 8-Core Butterfly-Shaped Optical Cable

Overview

Basic — 1,000 ft single-mode run indoors with minimal termination: Cable \$0.00/ft, Permits \$150, Accessories \$100. 60/ft, Permits. Fiber-optic cable pricing depends on whether you're purchasing materials alone or including complete installation. 52 per foot for wholesale bulk purchases, or \$1 to \$6 per foot at retail. The wide price range reflects differences in fiber strand. Midwest vs West Coast can show roughly $\pm 10\text{--}20\%$ differences on total quotes. Labor is typically the largest component for fiber projects, especially if trenching is required. **Core Components of Figure 8. On February 20, 2026, the President issued Executive Order 14389, "Ending Certain Tariff Actions," which provides that certain additional ad valorem duties imposed under the International Emergency Economic Powers Act (IEEPA) will no longer be collected. The USITC has not yet received further. A butterfly cable —also known as a figure-8 cable due to its distinctive shape—is a specialized fiber optic or communication cable widely used in telecommunications, data centers, and outdoor installations. Its unique design features two round sections connected by a thin web, resembling butterfly. GJXH fiber optic cable is an indoor optical cable specially developed for FTTH (Fiber to the Home). The optical fiber core

is located in the center of the cable body, two reinforcing cores are placed on both sides, and the outer layer is enveloped and sheathed to form a cable.
