

# The butterfly-shaped optical cable is 300 meters long

## Overview

**Product Description** This 300 meter (~984 feet) fiber optic cable is terminated with LC (Lucent Connector) connectors on both ends. It is a singlemode fiber (9 micron core) designed to transmit data across long distances at high speeds. The cable is designed to operate at FTTH (Fiber to the Home) drop cable is the final-section optical cable that connects the distribution point (fiber distribution box, FDB) to the subscriber's premises. In most FTTH architectures — whether. Streamline Your Fiber Access Network: Engineered for durability and ease of installation, the GJYXFC drop cable combines a robust strength member with a flexible, safe design, making it the ideal solution for bridging the final meters to the home or building.

## The butterfly-shaped optical cable is 300 meters long

Optical Network Terminal (ONT) at Customer Premises ↓ End User Device (Router/Phone/TV)  
Drop Cable Segment: .Length: Typically 50-300 meters per count: 1F (single ...

The GJYXFC butterfly drop cable is engineered for FTTH networks. Its steel wire core allows for aerial self-support, while the LSZH jacket ensures safety. Easy to strip & splice. Request a quote and ...

The GJYXFC butterfly drop cable is engineered for FTTH networks. Its steel wire ...

The maximum distance of copper is around 328 feet (100 meters), which is a far shorter range than is offered by either of the fiber optic cable types. This is because fiber optic cable is not ...

Discover our wholesale butterfly fiber optic cable with 9/125 LSZH sheath, available from \$0.03 to \$26.8. Start bulk orders from 5 units and enjoy low prices, ideal for FTTH and data center applications.

**Product Description** This 300 meter (~984 feet) fiber optic cable is terminated with LC (Lucent Connector) connectors on both ends. It is a singlemode fiber (9 micron core) designed to transmit ...

The Multi Loose Tube Non-Metallic Fiber Optic Cable is designed for outside plant, which is prone to electrical interference.

FTTH Drop Cables are designed to connect the fiber access point to the ONT on the home in a FTTH network. It offers an efficient and economical solution for deploying fiber in FTTH network.

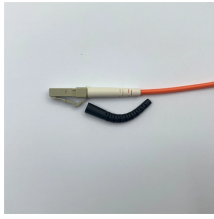

Support 1G/2.5G/5G/10G speeds, designed for high-speed ...

FTTH Butterfly Optic Cables, also known as flat drop fiber cables, feature a compact flat profile with optical fibers placed at the center and reinforced by parallel strength members on both sides.

Support 1G/2.5G/5G/10G speeds, designed for high-speed applications such as video conferencing. Resistant to physical damage and tempering, reducing the risk of signal loss in outdoor ...

The butterfly-shaped optical cable has a low optical loss, which means that the signal can travel a longer distance without any significant degradation in signal quality.
