

The largest optical cable construction company

Overview

Ledcor has built over 90,000 kilometers (55,000 miles) of fiber optic cable across North America and has pioneered industry-changing technologies along the way. Since our first project in 1979, we have been committed to excellence and innovation. DeployCom is a premier provider of broadband design, engineering, construction and network installation for fiber optic cable services. We complete complex construction projects consisting of aerial and underground deployments in varied, often difficult, working environments. With offices in nearly every state, MasTec has the ability to effectively mobilize the people, skills and technologies our clients need to improve service to their wireless customers. Whether it is a new build, an infrastructure upgrade, or site maintenance, our crews handle all aspects of the project—from start to finish.
