

Vanuatu Cable TV Bridge

Overview

In a significant move to enhance digital connectivity and seismic monitoring in the Pacific region, Prima, in collaboration with Alcatel Submarine Networks (ASN), has signed a contract for an unprecedented project: the establishment of the first SMART cable system connecting. In a significant move to enhance digital connectivity and seismic monitoring in the Pacific region, Prima, in collaboration with Alcatel Submarine Networks (ASN), has signed a contract for an unprecedented project: the establishment of the first SMART cable system connecting. Jean-Baptiste Jeangène Vilmer, French Ambassador to Vanuatu and the Solomon Islands has confirmed that the contract for a “smart” submarine cable to link New Caledonia and Vanuatu has been signed. The project was announced by President Emmanuel Macron during a visit to the region. We are providing nation-building telecommunications technologies and infrastructure to communities throughout the entire region, including building the first subsea bandwidth cable connecting Vanuatu. The world's first SMART cable system, called TAMTAM, will connect Vanuatu and New Caledonia. Efforts to install the world's first Science Monitoring And Reliable Telecommunications (SMART) seafloor cable cleared a major hurdle recently.

Vanuatu Cable TV Bridge
